State of South Carolina Treasurer's Office

Investment Division Mission Statement

- Provide professional portfolio management and investment services to the State, its agencies and any political entity in the State through efficient, effective utilization of resources.

State of South Carolina Treasurer's Office

Local Government Investment Pool

- LGIP is an investment mechanism authorized by the Legislature and signed into law on May 13, 1983, to provide local governments an opportunity to acquire maximum returns on investments by pooling available funds with funds from other political subdivisions.
 - The State Treasurer may sell participation units in the pool to all political subdivisions of the State. These units shall be legal investments for the subdivisions in addition to the investments and deposits authorized in Section 6-6-10, Section 12-45-220 and Section 11-1-60 of the 1976 Code of Laws of South Carolina.
-

State of South Carolina Treasurer's Office

Local Government Investment Pool

- The Pool currently offers two investment options:
 - The most commonly used pool participation provides a daily variable rate based on net earnings for that day and is credited at month end.
 - The second option can be exercised if an entity has a large sum of money available for a set period of time and would like a commitment on a predetermined fixed rate. This option may not be favorable in certain market conditions e.g. in the rising rate environment.
-

State of South Carolina Treasurer's Office

Rate Options

- Daily Rate
 - Rate varies and accrues daily with interest credited at the end of the month
- Fixed Rate
 - Rate is fixed for a specified term at the option of the local government

State of South Carolina Treasurer's Office

Eligible Participants in LGIP

- Counties
- Municipalities
- School Districts
- Special Purpose Districts
- Other Political Subdivisions

State of South Carolina Treasurer's Office

Local Government Investment Pool

- The program has experienced growth in the number of participants since its inception. As of February 2017, the Pool's balance was approximately \$5.7 billion with 256 participants which totals to 648 accounts.

State of South Carolina Treasurer's Office

"S.L.Y."

- ❖ Safety
- ❖ Liquidity
- ❖ Yield

State of South Carolina Treasurer's Office

Safety

- Define Risks
 - Credit Risk - probability of default. Invest principally in higher rated credits; Treasuries & Agencies
 - Interest Rate Risk – anticipated changes in the level of interest rates.
- Tend to take more interest rate risk by extending in maturity. Ultimately, we'll be paid back.

State of South Carolina Treasurer's Office

Authorized Investments (Section 11-9-660)

- Obligations of US Government (Treasuries)
 - Obligations of US Government Agencies
 - Repurchase Agreements Fully Collateralized by Treasuries or Agencies
 - Corporate Securities
 - Commercial Paper
-
- 

State of South Carolina Treasurer's Office

Liquidity

- Foundation of our approach to managing the LGIP is “Cash flow analysis”
- Determine your net flows over the time horizon of the fund
- Structure your fund to meet the obligations of your cash flow (i.e. 35% of your fund turns over in one month; 35% or greater of your fund should mature in that time period).

State of South Carolina Treasurer's Office

Yield

- Tertiary consideration behind safety and liquidity, but if we've done our homework on safety and liquidity, we'll be compensated with a higher yielding portfolio.

State of South Carolina Treasurer's Office

Value Added

- Actively but conservatively manage our credit exposure to ensure the portfolio is of the highest quality
- Actively manage yield curve exposure to take advantage of “roll-down” opportunities
- Actively execute extension swaps to monetize any price appreciation gained through lower yields
