South Carolina Charter School Facility Revolving Loan Application

Brief/Overview:

The establishment and maintenance of the Office of State Treasurer's ("STO") Charter School Facility Revolving Loan Program ("STO-CSFRLP") is authorized through Section 59-40-175, SC Code of Laws.

As noted, the STO-CSFRLP was established to provide low-interest loans to charter schools to help meet purposes established in the schools' charters. The CSFRLP serves South Carolina's public charter schools by providing funds to construct, purchase, renovate, and/or maintain public charter school facilities in order to assist schools in establishing high quality, high performing charter school operations for South Carolina's students and their families.

With such an announcement, interested Charter Schools will know that they are able to apply to the Office of State Treasurer using the SC Charter School Revolving Loan Fund application (attached). The completion and submittal of this application will initiate a three stage review and approval process. The first of these steps entail an educational-based review conducted by the South Carolina Department of Education. With an education based approval from the SC Department of Education, the Debt Division of the Office of State Treasurer will then conduct a financial-based review focusing on matters such as the primary and secondary repayment metrics of the prospective credit. Once finalized, and should this analysis prove favorable, Debt Division staff will present the prospective credit to the Office of State Treasurer's Charter School Revolving Loan Fund Committee to vote on the prospective credit.
