INDEPENDENT AUDITORS' REPORT

The Honorable Curtis M. Loftis, Jr.
South Carolina Office of the State Treasurer

And

Mr. George L. Kennedy, III, CPA
State Auditor
South Carolina Office of the State Auditor
Columbia, South Carolina

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the South Carolina Office of the State Treasurer (the "Office"), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Office's basic financial statements as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Office's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the

effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

OPINIONS

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Office, as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

EMPHASIS OF MATTER

Reporting Entity

As described in Note 1.A., the accompanying financial statements of the Office are intended to present the financial position and the respective changes in financial position of certain governmental activities and fiduciary funds comprising the reporting entity as defined by the Office. The accompanying financial statements exclude the South Carolina Tuition Prepayment Program, South Carolina Future Scholar 529 College Savings Plan, South Carolina Resources Authority, South Carolina Tobacco Settlement Revenue Management Authority, and South Carolina Local Government Investment Pool (the "Related Entities"), and all debt service transactions related to obligations of the State of South Carolina, its agencies, departments, and political subdivisions. They do not purport to, and do not present fairly, the financial position of the State of South Carolina as of June 30, 2020 and the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

OTHER MATTERS

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules, schedule of the proportionate share of the net pension liability, schedule of pension contributions, schedule of proportionate share of the net OPEB liability, and schedule of OPEB contributions as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic

financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2020 on our consideration of the Office's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Office's internal control over financial reporting and compliance.

Columbia, South Carolina
December 10, 2020

The Halle Group, P.A.

South Carolina Office of the State Treasurer
Management's Discussion and Analysis
For the Year Ended June 30, 2020

Management's Discussion and Analysis ("MD&A") of the South Carolina Office of the State Treasurer (the "Office") provides an overview of the Office's financial activities for the fiscal year ended June 30, 2020.

FINANCIAL HIGHLIGHTS

The Office prepared its financial statements on the Generally Accepted Accounting Principles ("GAAP") basis and follows pronouncements from the Governmental Accounting Standards Board ("GASB").

These financial statements do not include the transactions or balances from the South Carolina Tuition Prepayment Program, South Carolina Future Scholar 529 College Savings Plan, South Carolina Resources Authority, South Carolina Tobacco Settlement Revenue Management Authority, and South Carolina Local Government Investment Pool (the "Related Entities") and all debt service transactions related to obligations of the State of South Carolina (the "State"), its agencies, departments, and political subdivisions. The financial statements of the Related Entities were audited by other auditors as of and for the fiscal year ended June 30, 2020.

As of and for the fiscal year ended June 30, 2020:

- The Office's total net deficit increased by \$477,662, and its liabilities and deferred inflows of resources exceeded its assets and deferred outflows of resources (net deficit) by \$16,115,051.
- The Office received \$264,115,124 in appropriations from the State, substantially all of which was disbursed for general operations, student loans, and aid to subdivisions.
- The Office held \$1,544,233,754 of cash in an agency capacity.

USING THESE AUDITED FINANCIAL STATEMENTS

The audited basic financial statements presented in this document include both government-wide and fund financial statements.

Government-wide Financial Statements:

Government-wide financial statements include a Statement of Net Position and a Statement of Activities. These financial statements display information about the Office as a whole. The government-wide financial statements of the Office are presented on the accrual basis of accounting and provide short-term and long-term information about the Office. The residual measure of the government is net position (deficit) and represents assets and deferred outflows of resources that are greater (less) than liabilities and deferred inflows of resources.

Fund Financial Statements:

The fund financial statements include the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances. The governmental fund financial statements are presented on the modified accrual basis of accounting which focuses on the near-term inflows and outflows of resources available for expenditure for the current fiscal year.

The Office provides banking and investment services for state agencies. The assets held by the Office on behalf of the State and local governments are reported in the Fiduciary Funds along with amounts held in trust for private purposes. The Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position are presented on the accrual basis of accounting.

South Carolina Office of the State Treasurer
Management's Discussion and Analysis
For the Year Ended June 30, 2020

Statement of Net Position and Statement of Activities:

The Statement of Net Position provides a summary of the Office's financial condition at June 30, 2020; and reports all assets and liabilities using the accrual basis of accounting. The Statement of Activities reports the revenues and expenses for the fiscal year ended June 30, 2020 using the accrual basis of accounting.

SOUTH CAROLINA OFFICE OF THE STATE TREASURER
STATEMENT OF NET POSITION

	2020	2019
Current Assets	\$ 4,872,648	\$ 3,795,227
Capital Assets	79,483	145,150
Total Assets	4,952,131	3,940,377
Deferred Outflows of Resources	2,635,854	2,318,495
Current Liabilities	4,109,046	3,537,525
Noncurrent Liabilities	18,714,026	17,644,816
Total Liabilities	22,823,072	21,182,341
Deferred Inflows of Resources	879,964	713,920
Net Investment in Capital Assets	(4,360)	(3,321)
Restricted Net Position	912,565	374,790
Unrestricted Net Deficit	(17,023,256)	(16,008,858)
Total Net Deficit	\$ (16,115,051)	\$ (15,637,389)

For the fiscal year ended June 30, 2020, current assets increased by \$1,077,421 primarily due to retained cash balances that had not yet been distributed as aid to subdivisions but will be in the succeeding fiscal year. Current liabilities increased by \$571,521 primarily due to additional funds being held by the Office that will be distributed to qualifying fire districts. The funds are being held until State legislation clarifies proper distribution of the funds. Noncurrent liabilities increased by \$1,069,210 due to increases in the Office's net pension and OPEB liabilities, which are based on the Office's proportionate share of pension related amounts associated with the State's retirement and health plans.

Net Deficit, July 1	(15,637,389)	(15,202,373)
Net Deficit, June 30	\$ (16,115,051)	\$ (15,637,389)

General revenues of the Office are largely dependent upon appropriations from the State Legislature. For the fiscal year ended June 30, 2020, appropriations to the Office for Aid to Subdivisions were increased by the State Legislature, and as a result State Appropriations revenues and Aid to Subdivisions expenses both increased. The Office also added several members to its staff which, along with an increase in pension expense, increased personnel services expense for the fiscal year ended June 30, 2020. Lastly, remissions to the State General Fund increased from the fiscal year ended June 30, 2019 as the Aid to Subdivisions Fund was required to remit a portion of unspent appropriations to the State General Fund for the year ended June 30, 2020, which amounted to \$787,568, which was greater than the amount of unspent appropriations for the year ended June 30, 2019.

South Carolina Office of the State Treasurer
Management's Discussion and Analysis
For the Year Ended June 30, 2020

Statement of Net Position and Statement of Activities (Continued):

The Office received \$264,115,124 in appropriations from the State Legislature. These appropriations were spent for three purposes. The amount of \$2,118,927 was spent primarily on the operations of the Office. The amount of \$256,162,337 was disbursed as aid to various governmental subdivisions throughout the State. The amount of \$5,046,292 was spent on student loans. This resulted in \$787,568 of appropriations unspent, which were remitted to the State General Fund.

Capital Assets:

The Office had purchased \$197,002 of office equipment during the year ended June 30, 2019. There were no capital asset additions or retirements during the year ended June 30, 2020. Depreciation expense was \$65,667 for the year ended June 30, 2020.

Noncurrent Liabilities:

The Office's noncurrent liabilities consist of capital leases, compensated absences, and its proportionate share of the State of South Carolina's net pension and net OPEB liabilities related to the South Carolina Retirement System ("SCRS"). The Office made principal payments on its capital leases of \$64,628 which reduced the balance outstanding from \$148,471 at June 30, 2019 to \$83,843 at June 30, 2020. The compensated absences liability includes accrued annual leave earned for which employees are entitled to paid time off or payment at termination. Compensated absences used or transferred to another agency during the fiscal year were \$315,909 while another \$632,811 were accrued which caused the balance to increase from \$562,883 at June 30, 2019 to \$879,785 at June 30, 2020.

The Office's net pension liability has been recorded in accordance with GASB Statement No. 68 and represents the Office's share of the State's net pension liability related to the SCRS. The net pension liability as of June 30, 2019 was \$9,473,601 and at June 30, 2020, it had increased to \$9,697,767. The increase is due to a relative increase in participants applicable to the Office. GASB Statement No. 68 does not affect the Office's required contributions to the net pension liability. See Note 9 to the financial statements for additional information regarding the Office's pension plan.

The Office is also required to record its proportionate share of the net OPEB liability in accordance with GASB Statement No. 75 and represents the Office's share of the State's net OPEB liability related to the State's Retiree Health Insurance Trust Fund. The net OPEB liability as of June 30, 2019 was \$7,576,870 and increased to \$8,201,310 at June 30, 2020, also due to a relative increase in participants applicable to the Office. See Note 10 to the financial statements for additional information regarding the Office's OPEB plan.

Fund Highlights:

Governmental Funds

The focus of the Office's governmental funds is to provide information regarding actual inflows and outflows of spendable resources. The General Fund is the chief operating fund of the Office. The General Fund's operating revenues are provided through appropriations from the State Legislature. Revenues are not budgeted by the Office; therefore, expenditures are typically matched with appropriations so long as expenditures do not exceed budgeted appropriations. Due to differences in budgetary cutoff dates and the modified accrual basis of accounting, there was a deficit fund balance of \$284 for the General Fund.

South Carolina Office of the State Treasurer
Management's Discussion and Analysis
For the Year Ended June 30, 2020

Fund Highlights (Continued):

There are two major special revenue funds: the Aid to Subdivisions Fund and the State Treasurer's Office Earmarked Fund. The Aid to Subdivisions Fund distributes funds to various political subdivisions of the State based on amounts budgeted by the State. There was a surplus of \$787,568 in State appropriations in the Aid to Subdivisions Fund that were not distributed during the fiscal year ended June 30, 2020. Of this surplus, all was remitted back to the State General Fund after the end of the fiscal year, resulting in no change in fund balance and an ending fund balance of \$0. The State Treasurer's Office Earmarked Fund accounts for revenues and transfers of appropriations earmarked for specific Office operations. As required by the earmark provisions, these amounts can only be spent on specific operational expenditures of the Office, and therefore, the remaining fund balance is considered restricted. Revenues exceeded expenditures by \$537,775 during the fiscal year ended June 30, 2020 resulting in an ending fund balance of \$912,565.

Budget Highlights:

The State's Annual Appropriations Act, its legally adopted budget, does not present budgets by GAAP fund; instead, it presents program-level budgets for the following two funds:

General Funds – These funds are general operating funds. The resources in the funds are primarily taxes. The State expends General Funds to provide traditional State government services.

Total Funds – The Total Funds column in the Appropriations Act includes all budgeted resources. Amounts in this column include General Funds as well as most, but not all, federal and department-generated resources. Total Funds include portions of certain proprietary and capital project fund activities as well as most special revenue activities, but exclude the pension trust funds and some other fiduciary fund activities.

Amounts obtained by subtracting the General Funds column in the Appropriations Act from the Total Funds column in the Appropriations Act are referred to as *Other Budgeted Funds*.

The Office's budget for E160 General Funds was originally \$2,050,808 for the fiscal year ended June 30, 2020. This compares to a final budgeted amount of \$2,118,927. The increase was primarily due to a budgeted increase in unclassified positions, other personal services, and other operating expenditures offset by budgeted reductions in classified positions. Actual expenditures, on the budgetary basis, totaled \$2,118,927. These actual expenditures were in line with the final budgeted amount.

The Office's budget for E160 Other Budgetary Funds was originally \$7,891,061 for the fiscal year ended June 30, 2020. This compares to a final budgeted amount of \$13,160,941. The increase in the final budgeted amount was primarily due to additional appropriations for student loan payments to the South Carolina Student Loan Corporation in the budgeted amount of \$5,089,881. Actual expenditures, on the budgetary basis, totaled \$12,589,965. These actual expenditures were under budget by \$570,976 due primarily to expenditures for classified positions, other operating expenditures, and employer contributions being less than budgeted.

The Office's budget for X220 General Funds was originally \$254,264,510 for the fiscal year ended June 30, 2020. This compares to a final budgeted amount of \$256,162,335. The primary reason for the increase from the original to final budgeted amount was an increase in amounts budgeted to be distributed as aid to various subdivisions. Actual expenditures, on the budgetary basis, totaled \$255,189,766. These actual expenditures were \$972,569 less than the final budgeted amount. The Office's Aid to Subdivisions Fund only receives General Fund appropriations. Therefore, amounts are not budgeted for X220 Other Budgetary Funds.

South Carolina Office of the State Treasurer
Management's Discussion and Analysis
For the Year Ended June 30, 2020

Current Economic Conditions:

In December 2019, a novel strain of coronavirus disease ("COVID-19") was first reported in Wuhan, China. Less than four months later, on March 11, 2020, the World Health Organization declared COVID-19 a pandemic. The extent of COVID-19's effect on the Office will depend on future developments, including the duration, spread and intensity of the pandemic, all of which are uncertain and difficult to predict considering the rapidly evolving landscape. Should COVID-19 have a significant impact on future appropriations from the State Legislature, it could have a related impact on the Office's revenues, however, at this time the Office is not currently aware of any significant anticipated effects of COVID-19.

This MD&A is designed to provide a general overview of the Office's finances for all of the State's citizens, taxpayers, customers, investors and creditors. This financial report seeks to demonstrate the Office's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

South Carolina Office of the State Treasurer
 Reconciliation of the Statement of Revenues, Expenditures,
 and Changes in Fund Balances of Governmental Funds to the
 Statement of Activities
 For the Year Ended June 30, 2020

Total change in fund balance, governmental funds	\$	537,570
Amounts reported for governmental activities in the Statement of Activities are different because:		
Current year pension plan contributions are considered a deferred outflow of resources rather than a current year expense in the Statement of Activities		806,426
Current year OPEB plan contributions are considered a deferred outflow of resources rather than a current year expense in the Statement of Activities		323,918
Nonemployer contributions to the OPEB plan are recognized in the Statement of Activities as revenues		55,960
Repayment of capital lease liabilities are reported as expenditures in the governmental funds while governmental activities reports these payments as reductions in liabilities		64,628
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:		
Depreciation		(65,667)
Increase in pension expense due to changes in the net pension liability and related deferred outflows and inflows of resources		(1,335,908)
Increase in OPEB expense due to changes in the net OPEB liability and related deferred outflows and inflows of resources		(547,687)
Increase in compensated absences		(316,902)
		(477,662)
Increase in net deficit, governmental activities	\$	(477,662)

The notes to the financial statements are an integral part of these financial statements.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

1. Summary of Significant Accounting Policies

The financial statements of the South Carolina Office of the State Treasurer (the “Office”) have been prepared in conformity with United States Generally Accepted Accounting Principles (“GAAP”) as applied to governmental units. The Governmental Accounting Standards Board (“GASB”) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Office’s accounting policies are described below.

A. Reporting Entity

The Office is established under the authority of the Constitution of South Carolina (the “Constitution”) as an agency of the State of South Carolina (the “State”). The Office performs duties as designated by the Constitution or prescribed by law. The Office is a part of the primary government of the State.

The State Treasurer is elected every four years and is inaugurated the second Monday in January following the election for the position in November. In January 2011, the Honorable Curtis M. Loftis, Jr. became the State Treasurer.

The primary functions of the Office are acting as Custodian for State funds, maintaining bank accounts for the receipt and disbursement of State funds, prudent investing of certain State funds, and administering the State’s Unclaimed Property Program. Additionally, the Office performs safekeeping and investment functions for State agencies and other entities as authorized by State statute. Various activities of the Office include receipt of documents, management of cash and investments, management of debt service for various State entities, and the reconciliation of account balances and transactions with the various State agencies. The Office is also responsible for accounting functions associated with the South Carolina Tuition Prepayment Program, South Carolina Future Scholar 529 College Savings Plan, South Carolina Resources Authority, South Carolina Tobacco Settlement Revenue Management Authority, and South Carolina Local Government Investment Pool.

The accompanying financial statements are intended to present the financial position and results of operations of only that portion of the State that is attributable to transactions of the Office, and exclude the South Carolina Tuition Prepayment Program, South Carolina Future Scholar 529 College Savings Plan, South Carolina Resources Authority, South Carolina Tobacco Settlement Revenue Management Authority, and South Carolina Local Government Investment Pool (the “Related Entities”), and all debt service transactions related to obligations of the State, its agencies, departments, and political subdivisions. The financial statements of the Related Entities were audited by other auditors as of and for the fiscal year ended June 30, 2020.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

1. Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation, Measurement Focus and Basis of Accounting

Government-Wide Financial Statements

The government-wide financial statements are presented under GAAP using the accrual basis of accounting and pronouncements issued by the GASB.

All of the functions available to finance the Office are presented together as general government activities. Financial information for funds that are not available to finance these activities are not included; consequently, the government-wide financial statements exclude fiduciary assets and liabilities.

Additionally, the Office receives reimbursement from the unclaimed property funds for certain costs incurred in connection with the recovery, advertisement, and sale of unclaimed property. The Office holds unclaimed property refunds, or escheated property, in an agency capacity. A liability is recorded for amounts expected to be reclaimed and paid to claimants. This liability is satisfied by the State's General Fund. For the fiscal year ended June 30, 2020, the Office received \$1,995,000 of unclaimed property receipts to offset certain capital and administrative costs incurred in connection with the administration of the State's Unclaimed Property Program. The Unclaimed Property Program is accounted for as an agency fund.

Fund Financial Statements

The fund financial statements are used to report the Office's financial position and results of operations as well as to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. The governmental fund financial statements are presented on the modified accrual basis of accounting and the fiduciary fund financial statements are presented on the accrual basis. These methods of accounting are described below.

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned or for non-exchange transactions, when all eligibility requirements have been met, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. "Measurable" means that the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay obligations of the current period. For this purpose, the Office considers major sources of revenue to be available if they are collected within sixty days of the end of the current fiscal year.

Financial resources of fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

1. Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation, Measurement Focus and Basis of Accounting (Continued)

Governmental Fund Types

General Fund – The General Fund is the primary operating fund of the Office. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund.

Special Revenue Funds – These funds are used to account for revenues derived from specific taxes, state appropriations, and other revenue sources that are designated to finance particular functions or activities of the Office. Special Revenue Funds include:

- *Aid to Subdivisions Fund* – The Aid to Subdivisions Fund is a special revenue fund that accounts for appropriations set by the General Assembly from the State General Fund for aid to governmental subdivisions. Actual distributions are formula funded based on actual collections of the specific State General Fund revenue types.
- *State Treasurer’s Office Earmarked Fund* – This special revenue fund accounts for revenues and transfers of appropriations earmarked for specific Office operations or restricted for student loan expenditures.

Fiduciary Funds – Transactions related to assets held by the Office as an agent of other governmental agencies or private organizations are accounted for in the Fiduciary Funds. These are presented separately in the financial statements. The Office’s Fiduciary Funds include:

- *Private Purpose Trust Funds* – These funds include a trust fund with assets set aside for site stabilization and closure of a nuclear waste site operated by a private company within the State’s borders in the event that the company ceases operations or loses its license to operate as well as a trust fund with assets set aside for the operation of the equestrian center and activities at the Springdale Race Course (for the exclusive benefit of the Carolina Cup Racing Association, Inc., a private nonprofit corporation). The Private-Purpose Trust Funds also include miscellaneous other trust agreements holding assets that benefit non-State parties.
- *Agency Funds* – These funds are used to account for assets held by the Office in an agency capacity. The Office is the official depository for agencies of the State and, accordingly, administers the significant majority of State agency receipts and disbursements.

The fund financial statements focus on major funds. Each major fund is presented in a separate column. Major funds include (a) the Office’s primary operating fund, (b) any fund for which total cash, receipts, or disbursements of an individual fund are at least 10% of the corresponding element total for all funds of that type, and (c) any other fund that Office officials believe is particularly important to financial statement users. The Office reports the following major governmental funds which are discretely presented in the governmental fund financial statements:

- General Fund
- Aid to Subdivisions Fund
- State Treasurer’s Office Earmarked Fund

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

1. Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation, Measurement Focus and Basis of Accounting (Continued)

Cash

The amounts shown in the accompanying financial statements as cash represents cash on deposit in banks and cash held in various instruments as a part of the State's cash management pool. Since the cash management pool operates as a demand deposit account, amounts held in the pool are classified as cash. The Office administers the cash management pool.

Cash Management Pool – Allocation of Interest

The State's cash management pool consists of a general deposit account and several special deposit accounts. The State records each fund's equity interest in the general deposit account. All earnings on that account are recorded in the State General Fund. In contrast, each special deposit account retains its own earnings.

Capital Assets

The Office's capital assets are reported in its governmental activities and fiduciary type activities. The Office's capital assets reported in its governmental activities consist primarily of equipment for the day to day operations of the Office. The capital assets reported in the fiduciary type activities are managed in trust for the benefit of others are reported in the Statement of Fiduciary Net Position – Fiduciary Funds.

Capital assets are valued at historical cost or at estimated historical cost if actual historical cost data is not available. Donated capital assets are recorded at acquisition value on the donation date. The costs of normal maintenance and repairs that do not significantly add to the value of an asset or materially extend an asset's useful life are not capitalized.

An individual asset is capitalized and reported if it has an estimated useful life of at least two years and a historical cost of more than \$5,000 for buildings and improvements, equipment, and vehicles. All land and non-depreciable land improvements with a cost of more than \$100,000 are capitalized and reported. Once the Office places a depreciable capital asset in service, depreciation is recorded using the straight-line method over the following useful lives:

<u>Asset Category</u>	<u>Years</u>
Buildings and Improvements	5-55
Equipment	2-25
Vehicles	3-20

Compensated Absences

Generally, all permanent full-time State employees and certain part-time employees scheduled to work at least one-half of the Office's working days of the month are entitled to accrue and carry forward, at calendar year-end maximums, 180 days of sick leave and 45 days of annual vacation leave. Upon termination of State employment, employees are entitled to be paid for accumulated unused annual vacation leave up to the maximum but are not entitled to any payment for unused sick leave.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

1. Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation, Measurement Focus and Basis of Accounting (Continued)

Compensated Absences (Continued)

The compensated absences liability includes accrued annual leave earned for which the employees are entitled to paid time off or payment at termination. The entire unpaid liability for which the Office expects to compensate employees through paid time off or cash payments, inventoried at fiscal year-end, current salary costs, and the cost of the salary-related benefit payments, is recorded as a liability. The General Fund is used to liquidate the liability for compensated absences.

Due to Depositors

Due to Depositors reported in the Statement of Fiduciary Net Position – Fiduciary Funds represents amounts held by the Office in its Agency Funds for the benefit of other State agencies, local governments, and State boards. The Office collects various taxes, fines, and fees on behalf of these entities until the funds are needed for use or are distributed under applicable State provisos. The balance of this liability was \$1,104,974,221 as of June 30, 2020.

Unclaimed Property Refunds

The Office holds unclaimed property refunds, or escheated property, in an agency capacity; unclaimed property refunds are reported in the Agency Funds. Each year, the Unclaimed Property Program receives millions of dollars from companies that cannot locate the owners of the funds. The Unclaimed Property Program does not include tangible property like land or vehicles. A liability is recorded for amounts expected to be reclaimed and paid to claimants. See Note 14 for more information on unclaimed property refunds and the respective Unclaimed Property Program.

Net Position and Fund Balance

Net position is the residual measure of governmental activities while fund balance is the residual measure of governmental funds. A description of the various classifications of net position and fund balance are as follows:

Net Position

Net investment in capital assets

The net investment in capital assets portion of net position consists of capital assets, net of accumulated depreciation and outstanding liability balances associated with the capital assets. As of June 30, 2020, the Office held \$79,483 of capital assets, however, the associated capital lease balances exceeded the value of the capital assets, thus there was a deficit balance of \$4,360. The Office also reported net investment in capital assets of \$4,366,676 in the Private Purpose Trust Funds.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

1. Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation, Measurement Focus and Basis of Accounting (Continued)

Net Position and Fund Balance (Continued)

Restricted net position

Restricted net position consists of assets with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or laws through constitutional provisions or enabling legislation. In all cases, if individual restricted net position categories are negative, the negative balance is eliminated and reclassified against unrestricted net position. As of June 30, 2020, the Office reported \$912,565 of restricted net position.

Net position held in trust

Net position held in trust consists of assets that are held by the Office in a fiduciary capacity for the decommissioning of a nuclear plant, aid to subdivisions, the Springdale Fund which benefits the Springdale Race Course, or other specific purposes as defined by the trust. As of June 30, 2020, net position held in trust was only reported in the Office's Private Purpose Trust Funds.

Unrestricted net position

All other assets that do not meet the definition of "restricted" are considered "unrestricted". The Office's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Fund Balance

The Office follows the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following categories of fund balance are used in the fund level financial statements of the governmental funds:

Non-spendable fund balance

The non-spendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example, inventories and prepaids. It also includes the long-term amount of loans and notes receivable, as well as other assets. As of June 30, 2020, the Office did not have any non-spendable fund balance.

Restricted fund balance

The restricted fund balance classification includes amounts that are either restricted externally by creditors, grantors, contributors, or laws or regulations of other governments or restricted by law through constitutional provisions or enabling legislation. Nearly all of the Office's fund balance is presented as restricted as all fund balance is restricted as to use for specific purposes under State provisions. These purposes are primarily to pay costs for the management of the Unclaimed Property Program and investment and debt management.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

1. Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation, Measurement Focus and Basis of Accounting (Continued)

Net Position and Fund Balance (Continued)

Committed fund balance

The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Office's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the Office removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. Committed fund balances also incorporate contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. As of June 30, 2020, the Office did not have any committed fund balance.

Assigned fund balance

The assigned fund balance classification includes amounts that are constrained by the Office's intent to be used for specific purposes but are not restricted or committed. The authority for making an assignment is not required to be the Office's highest level of decision-making authority and as such, the nature of the actions necessary to remove or modify an assignment does not require the Office's highest level of authority. As of June 30, 2020, the Office did not have any assigned fund balance.

Unassigned fund balance

The unassigned fund balance classification includes amounts that have not been assigned to other funds and have not been restricted, committed, or assigned for specific purposes within the General Fund.

Based on the Office's policies regarding fund balance classifications as noted above, it considers amounts that are restricted, committed, or assigned to be spent when the corresponding expenditure has been designated by the State or donor stipulations have been made. After these fund balances have been depleted, unassigned fund balances will be considered to have been spent. As of June 30, 2020, the Office reported a deficit unassigned fund balance of \$284.

Deficit Net Position and Fund Balance

The Office reported unrestricted net deficit of \$17,023,256 which is due primarily to its proportionate share of the net pension and OPEB liabilities of \$17,899,077 (see Notes 9 and 10 for more details). The Office does not anticipate funding these liabilities and will continue to contribute to the pension and OPEB plans at State required contribution rates. The Office also reported deficit fund balance in its General Fund of \$284 which will be funded by revenues and State appropriations in the year ending June 30, 2021.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

1. Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation, Measurement Focus and Basis of Accounting (Continued)

Deferred Outflows and Inflows of Resources

A deferred outflow or inflow of resources is a consumption or acquisition of net position that is applicable to a future reporting period. The Office has recorded deferred outflows and inflows of resources in connection with the retirement plan contributions made subsequent to the measurement date, the difference between projected and actual investment earnings on retirement plan assets, the difference between actual and expected retirement plan experience, and changes in proportion and differences between the Office's actual contributions and its proportionate share of contributions.

Revenue from Other State Agencies

Revenue from Other State Agencies in the State Treasurer's Office Earmarked Fund generally consists of revenue earned for administering State programs such as the Unclaimed Property Program and the South Carolina Future Scholar 529 College Savings Plan as well as fees for administering the State's and State agencies' long-term debt.

Contracted Services

Contracted services expenditures in the General Fund generally consist of payments for professional and data processing services.

Contracted services expenditures in the State Treasurer's Office Earmarked Fund generally consist of payments for asset and debt management consulting fees, custodial fees, and other investment consulting services.

Contracted services expenses in the Private Purpose Trust Funds generally consist of payments for the administration and decommissioning of a nuclear plant.

Student Loans – Student Loan Corporation

Student Loans – Student Loan Corporation expenditures in the State Treasurer's Office Earmarked Fund are payments to the South Carolina Student Loan Corporation for its loan disbursements under its South Carolina Teachers Loan Program. These payments are funded through State Appropriations.

State Allocations

State Allocations expenses in the Private Purpose Trust Funds generally consist of payments to municipalities for their allocated share of State collected fees, such as the solid waste fee.

Disbursements to Devisee

Disbursements to Devisee in the Private Purpose Trust Funds represent payments to the Carolina Cup Racing Association, Inc. The Office distributes the investment and interest income on the Springdale Fund, one of the Private Purpose Trust Funds, which is held for the benefit of the Springdale Race Course in Camden, South Carolina. The corpus of the fund is \$1,050,653 as of the fiscal year ended June 30, 2020.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

1. Summary of Significant Accounting Policies (Continued)

C. Recently Issued Accounting Pronouncements

The GASB has issued the following standards that were effective during the current reporting period or will be effective in future periods: In May 2020, the GASB issued GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. The primary objective of this Statement is to extend the effective dates of certain accounting and financial reporting guidance that were first effective for reporting periods beginning after June 15, 2018 in light of the COVID19 pandemic. Updated implementation dates for the applicable extended Statements are indicated in the following paragraphs.

In January 2017, the GASB issued GASB No. 84, *Fiduciary Activities*. The objective of this statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. This statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria. This statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. Events that compel a government to disburse fiduciary resources occur when a demand for the resources has been made or when no further action, approval, or condition is required to be taken or met by the beneficiary to release the assets. This statement was extended and is effective for reporting periods beginning after December 15, 2019. The Office is evaluating the effect, if any, this statement will have on its financial statements.

In June 2017, the GASB issued GASB Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement were extended and are effective for reporting periods beginning after June 15, 2021. Earlier adoption is permitted. The Office is evaluating the effect, if any, this statement will have on its financial statements.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

1. Summary of Significant Accounting Policies (Continued)

C. Recently Issued Accounting Pronouncements (Continued)

In January 2020, the GASB issued GASB No. 92, Omnibus 2020. The objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including leases and benefit plans. This statement contains segmented implementation that was extended and is effective for reporting periods beginning after June 15, 2021. The Office is evaluating the effect, if any, this statement will have on its financial statements.

2. Budget Policy

The Office is granted an annual appropriation for operating purposes by the General Assembly. The appropriation, as enacted, becomes the legal operating budget for the Office. The Appropriation Act authorizes expenditures from funds appropriated from the State General Fund and authorizes expenditures of total funds. The “Total Funds” column in the Appropriation Act for each individual budgetary unit authorizes expenditures from all budgeted resources. A revenue budget is not adopted for individual budgetary funds. Budgetary control is maintained at the line-item level of the budgetary entity. Agencies may process disbursement documents in the State’s budgetary accounting system only if enough cash and appropriation authorization exist.

Transfers of funds may be approved by the State Fiscal Accountability Authority (the “SFAA”) under its authority or by the agency as set forth in Appropriation Act Proviso 117.9 as follows: Agencies and institutions shall be authorized to transfer appropriations within programs and within the agency with notification to the Executive Budget Office and the Comptroller General. No such transfer may exceed twenty percent of the program budget. Upon request, details of such personnel transfers may be provided to members of the General Assembly on an agency by agency basis. Transfers of appropriations from personnel service accounts to other operating accounts or from other operating accounts to personnel service accounts may be restricted to any established standard levels set by the SFAA upon formal approval by a majority of the members of the SFAA.

During the fiscal year-end closeout period in July, agencies may continue to charge vendor, interagency, and interfund payments for the fiscal year to that fiscal year’s appropriations. Any unexpended State General Fund monies as of June 30 automatically lapse to the State General Fund on July 1 unless authorization is received from the General Assembly to carry over the funds to the ensuing fiscal year.

3. Deposits

By law, all deposits are under the control of the Office except for those that, by specific authority, are under the control of other agencies or component units. The deposit and investment policies of those entities may differ from those of the Office. Typically, these agencies follow the deposit and investment policies of the Office in an effort to minimize deposit and investment risks.

Deposits include cash on deposit in banks. The State’s policy, by law, requires all banks or savings and loan associations that receive State funds deposited by the Office, to secure the deposits by deposit insurance, surety bonds, collateral securities, or letters of credit to protect the State against any loss. All deposit and investment transactions of the Office are under the control of the Office who, by law, has sole authority for the investment of such funds.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

3. Deposits (Continued)

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of a depository financial institution's failure, the Office will not be able to recover collateral securities that are in the possession of an outside party. Deposits include cash on deposit in banks. All deposits under the control of the Office are fully insured or collateralized.

4. Investment Management Fees

Under Proviso 98.5, the Office may charge a fee for the operating and management costs associated with the investment management and support operations of various State funds and programs and, further, may retain and expend the fees to provide these services. The fees assessed may not exceed the actual cost of the provision of these services or the earnings on these investments. The total amount the Office received in investment management fees for the fiscal year ended June 30, 2020 was \$2,500,000.

5. Amounts Due from Other State Agencies

At June 30, 2020, the Private Purpose Trust Funds and Agency Funds held receivables due from other State agencies. The following is a summary of the amounts due from other State agencies:

	Private Purpose Trust	Agency
	<u> </u>	<u> </u>
Selective Sales and Use Taxes	\$ 255,731	\$ 33,864,945
Accommodations Tax / Tourism Fee	—	5,147,910
Local Option Sales Tax	—	66,197,632
Motor Carrier / Road Use Fees	—	8,384,177
Tobacco Products Playing Card Tax	—	9,023,235
Unclaimed Property	—	52,568,459
Mini Bottle Tax	—	370,022
Miscellaneous Revenue	11,615	850,734
	<u> </u>	<u> </u>
Total Amounts Due from Other State Agencies	<u>\$ 267,346</u>	<u>\$ 176,407,114</u>

South Carolina Office of the State Treasurer
Notes to the Financial Statements

Notes to the Financial Statements
For the Year Ended June 30, 2020

7. Amounts Due to Local Governments

At June 30, 2020, the Agency Funds held amounts due to local governments. The following is a summary of the amounts due to local governments:

	Agency
Capital Reserve Fund	\$ 162,485,305
Local Option, Sales, and Accommodation Taxes	186,457,680
Motor Carrier Fees	11,208,108
Proviso 118.16 Funding	9,598,318
Mini Bottle Tax	1,198,382
Miscellaneous Amounts	397,592
Total Amounts Due to Local Governments	\$ 371,345,385

8. Long-term Liabilities

Long-term liabilities consist of compensated absences and capital leases. Long-term liability activity for the year ended June 30, 2020 for the primary government was as follows:

	Beginning Balance June 30, 2019	Increases	Decreases	Ending Balance June 30, 2020	Current Portion
Compensated absences	\$ 562,883	\$ 632,811	\$ (315,909)	\$ 879,785	\$ 81,821
Capital leases	148,471	-	(64,628)	83,843	66,858
	\$ 711,354	\$ 632,811	\$ (380,537)	\$ 963,628	\$ 148,679

The Office entered into several capital leases for the use of office and data processing equipment during the year ended June 30, 2019. The gross balance of the assets purchased under capital leases was \$197,002. Current year and accumulated amortization of those assets was \$65,667 and \$117,519, respectively, for the year ended June 30, 2020. Amortization of these assets is reported as depreciation expense in the Statement of Activities. Interest rates on the capital leases range from 6.29% to 7.29%. Estimated future rental payments under the capital leases are as follows:

Fiscal Year Ending June 30,	
2021	\$ 70,421
2022	17,035
Total lease payments	87,456
Less portion of payments representing interest	(3,613)
Total capital lease principal	\$ 83,843

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

9. Pension Plan

The South Carolina Public Employee Benefit Authority (PEBA), created July 1, 2012, is the state agency responsible for the administration and management of the various Retirement Systems and retirement programs of the state of South Carolina, including the State Optional Retirement Program and the S.C. Deferred Compensation Program, as well as the state's employee insurance programs. As such, PEBA is responsible for administering the South Carolina Retirement Systems' five defined benefit pension plans. PEBA has an 11-member Board of Directors, appointed by the Governor and General Assembly leadership, which serves as custodian, co-trustee and co-fiduciary of the Systems and the assets of the retirement trust funds. The Retirement System Investment Commission (Commission as the governing body, RSIC as the agency), created by the General Assembly in 2005, has exclusive authority to invest and manage the retirement trust funds' assets. The Commission, an eight-member board, serves as co-trustee and co-fiduciary for the assets of the retirement trust funds. By law, the SFAA, which consists of five elected officials, also reviews certain PEBA Board decisions regarding the actuary of the Systems.

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Systems and additions to/deductions from the Systems fiduciary net position have been determined on the accrual basis of accounting as they are reported by the Systems in accordance with GAAP. For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Benefit and refund expenses are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

PEBA issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through the Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, retirement trust fund financial information is also included in the comprehensive annual financial report of the state.

Plan Descriptions

- The South Carolina Retirement System (SCRS), a cost-sharing multiple-employer defined benefit pension plan, was established July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits for teachers and employees of the state and its political subdivisions. SCRS covers employees of state agencies, public school districts, higher education institutions, other participating local subdivisions of government and individuals newly elected to the South Carolina General Assembly at or after the 2012 general election.
- The State Optional Retirement Program (State ORP) is a defined contribution plan that is offered as an alternative to SCRS to certain newly hired employees of state agencies, institutions of higher education, public school districts and individuals first elected to the S.C. General Assembly at or after the general election in November 2012. State ORP participants direct the investment of their funds into an account administered by one of four third party service providers. PEBA assumes no liability for State ORP benefits. Rather, the benefits are the liability of the four third party service providers. For this reason, State ORP assets are not part of the retirement systems' trust funds for financial statement purposes.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

9. Pension Plan (Continued)

Plan Descriptions (Continued)

Membership

Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements under each system is presented below.

- SCRS - Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.
- State ORP - As an alternative to membership in SCRS, certain newly hired state, public school, and higher education employees and individuals first elected to the S.C. General Assembly at or after the November 2012 general election have the option to participate in the State ORP. Contributions to the State ORP are at the same rates as SCRS. A direct remittance is required from the employer to the member's account with the ORP service provider for the employee contribution and a portion of the employer contribution (5 percent). A direct remittance is also required to SCRS for the remaining portion of the employer contribution and an incidental death benefit contribution, if applicable, which is retained by SCRS.

Benefits

Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation/current annual salary. A brief summary of the benefit terms for each system is presented below.

- SCRS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years. Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

Notes to the Financial Statements
For the Year Ended June 30, 2020

9. Pension Plan (Continued)

Plan Descriptions (Continued)

Contributions

Actuarial valuations are performed annually by an external consulting actuary to ensure applicable contribution rates satisfy the funding parameters specified in Title 9 of the South Carolina Code of Laws. Under these provisions, SCRS contribution requirements must be sufficient to maintain an amortization period for the financing of the unfunded actuarial accrued liability (UAAL) over a period that does not exceed the number of years scheduled in state statute. Legislation in 2017 increased, but also established a ceiling for SCRS and PORS employee contribution rates. Effective July 1, 2017, employee rates were increased to a capped rate of 9.00 percent for SCRS. The legislation also increased employer contribution rates beginning July 1, 2017 for SCRS by two percentage points and further scheduled employer contribution rates to increase by a minimum of one percentage point each year through July 1, 2022. If the scheduled contributions are not sufficient to meet the funding periods set in state statute, the board shall increase the employer contribution rates as necessary to meet the funding periods set for the applicable year. The maximum funding period of SCRS is scheduled to be reduced over a ten-year schedule from 30 years beginning fiscal year 2018 to 20 years by fiscal year 2028.

Additionally, the Board is prohibited from decreasing the SCRS contribution rates until the funded ratio is at least 85 percent. If the most recent annual actuarial valuation of the Systems for funding purposes shows a ratio of the actuarial value of system assets to the actuarial accrued liability of the system (the funded ratio) that is equal to or greater than 85 percent, then the board, effective on the following July first, may decrease the then current contribution rates upon making a finding that the decrease will not result in a funded ratio of less than 85 percent. If contribution rates are decreased pursuant to this provision, and the most recent annual actuarial valuation of the system shows a funded ratio of less than 85 percent, then effective on the following July first, and annually thereafter as necessary, the board shall increase the then current contribution rates until a subsequent annual actuarial valuation of the system shows a funded ratio that is equal to or greater than 85 percent.

Required employee contribution rates¹ are as follows:

	<u>Fiscal Year 2020</u>	<u>Fiscal Year 2019</u>
SCRS		
Employee Class Two	9.00%	9.00%
Employee Class Three	9.00%	9.00%
State ORP		
Employee	9.00%	9.00%

Required employer contribution rates¹ are as follows:

	<u>Fiscal Year 2020</u>	<u>Fiscal Year 2019</u>
SCRS		
Employer Class Two	15.41%	14.41%
Employer Class Three	15.41%	14.41%
Employer Incidental Death Benefit	0.15%	0.15%

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

9. Pension Plan (Continued)

Plan Descriptions (Continued)

Contributions (Continued)

	Fiscal Year 2020	Fiscal Year 2019
State ORP		
Employer Contribution ²	15.41%	14.41%
Employer Incidental Death Benefit	0.15%	0.15%

¹ Calculated on earnable compensation as defined in Title 9 of the South Carolina Code of laws.

² Of this employer contribution, 5% of earnable compensation must be remitted by the employer directly to the ORP service provider to be allocated to the member's account with the remainder of the employer contribution remitted to the SCRS.

The Office has contributed \$806,426 and \$680,129 to the SCRS and ORP for the years ended June 30, 2020 and 2019, respectively.

Actuarial Assumptions and Methods

Actuarial valuations of the plan involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the Systems was most recently issued for the period ending June 30, 2015.

The June 30, 2019, total pension liability (TPL), net pension liability (NPL), and sensitivity information shown in this report were determined by our consulting actuary, Gabriel, Roeder, Smith and Company (GRS) and are based on an actuarial valuation performed as of July 1, 2018. The total pension liability was rolled-forward from the valuation date to the plans' fiscal year end, June 30, 2019, using generally accepted actuarial principles.

The following table provides a summary of the actuarial assumptions and methods used to calculate the TPL as of June 30, 2019.

	SCRS
Actuarial cost method	Entry age normal
Investment rate of return ¹	7.25%
Projected salary increases ¹	3.0% to 12.5% (varies by service)
Benefit adjustments	lesser of 1% or \$500 annually

¹ Includes inflation at 2.25%

The post-retiree mortality assumption is dependent upon the member's job category and gender. The base mortality assumptions, the 2016 Public Retirees of South Carolina Mortality table (2016 PRSC), was developed using the Systems' mortality experience. These base rates are adjusted for future improvement in mortality using published Scale AA projected from the year 2016.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

9. Pension Plan (Continued)

Actuarial Assumptions and Methods (Continued)

Assumptions used in the determination of the June 30, 2019, TPL are as follows.

Former Job Class	Males	Females
Educators	2016 PRSC Males multiplied by 92%	2016 PRSC Females multiplied by 98%
General Employees and Members of the General Assembly	2016 PRSC Males multiplied by 100%	2016 PRSC Females multiplied by 111%
Public Safety and Firefighters	2016 PRSC Males multiplied by 125%	2016 PRSC Females multiplied by 111%

Net Pension Liability

The NPL is calculated separately for each system and represents that particular system's TPL determined in accordance with GASB No. 67 less that System's fiduciary net position. NPL totals, as of June 30, 2019, for SCRS is presented below.

System	Total Pension Liability	Plan Fiduciary Net Position	Employers' Net Pension Liability	Plan Fiduciary Net Position as a Percentage of the Total Pension Liability
SCRS	\$ 50,073,060,256	\$ 27,238,916,138	\$ 22,834,144,118	54.4%

The TPL is calculated by the Systems' actuary, and each plan's fiduciary net position is reported in the Systems' financial statements. The NPL is disclosed in accordance with the requirements of GASB 67 in the Systems' notes to the financial statements and required supplementary information. Liability calculations performed by the Systems' actuary for the purpose of satisfying the requirements of GASB Nos. 67 and 68 are not applicable for other purposes, such as determining the plans' funding requirements.

The Office's proportionate share of the net pension liability was calculated on the basis of historical employer contributions. Although GASB 68 encourages the use of the employer's projected long-term contribution effort to the retirement plan, allocating on the basis of historical employer contributions is considered acceptable. For the year ending June 30, 2019, the Office's percentage of the SCRS net pension liability was 0.04228%. For the year ending June 30, 2020, the Office's percentage of the SCRS net pension liability was 0.04247% which is an increase of 0.00019%. The Office's proportionate share is determined by its percentage of total contributions to SCRS during the respective fiscal year. The change in percentage resulted in the Office recognizing a change in its proportionate share of the SCRS net pension liability at related deferred outflows and inflows of resources.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

9. Pension Plan (Continued)

Net Pension Liability (Continued)

Discount Rate

The discount rate used to measure the TPL was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS will be made based on the actuarially determined rates based on provisions in the South Carolina Code of Laws. Based on those assumptions, the System's fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments is based upon 20-year capital market assumptions. The long-term expected rates of return represent assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market-based inputs. Expected returns are net of investment fees.

The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2019 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation and is summarized in the table on the following page. For actuarial purposes, the 7.25 percent assumed annual investment rate of return used in the calculation of the TPL includes a 5.00 percent real rate of return and a 2.25 percent inflation component.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

Sensitivity Analysis

The following table presents the collective net pension liability of the participating employers calculated using the discount rate of 7.25 percent, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is 1.00 percent lower (6.25 percent) or 1.00 percent higher (8.25 percent) than the current rate.

Sensitivity of the Proportional Share of Net Pension Liability to Changes in the Discount Rate			
System	1.00% Decrease (6.25%)	Current Discount Rate (7.25%)	1.00% Increase (8.25%)
SCRS	\$ 12,217,024	\$ 9,697,767	\$ 7,595,107

Deferred Outflows (Inflows) of Resources

For the year ended June 30, 2020, the Office recognized pension expense of \$1,335,908 which is included in employer fringe benefits in the accompanying financial statements. At June 30, 2020, the Office reported deferred outflows (inflows) of resources related to pensions from the following sources and will be amortized to pension expense as noted in following schedules. Average remaining service lives of all employees provided with pensions through the pension plans at June 30, 2019 was 4.026 years for SCRS:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 806,426	\$ —
Differences in actual and expected plan experience	6,666	69,667
Change in proportionate share and differences between the Office's contributions and proportionate share of contributions	280,874	35,775
Changes in assumptions	195,424	—
Net differences between projected and actual earnings on plan investments	85,858	—
	\$ 1,375,248	\$ 105,442

Measurement Period Ending June 30,	Fiscal Year Ending June 30,	SCRS
2020	2021	\$ 263,407
2021	2022	145,645
2022	2023	(28,996)
2023	2024	83,324

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

9. Pension Plan (Continued)

Deferred Outflows (Inflows) of Resources (Continued)

The Office reported \$806,426 as deferred outflows of resources related to contributions subsequent to the measurement date which will be recognized as a reduction of the net pension liability in the year ended June 30, 2021.

10. Post-Employment Benefits Other Than Pensions

PEBA is a state agency responsible for the administration and management of the state's employee insurance programs, other post-employment benefits trusts. By law, the SFAA, which consists of five elected officials, also reviews certain PEBA Board decisions in administering the State Health Plan and other post-employment benefits (OPEB). See Note 9 for more details on PEBA and the SFAA.

PEBA, Insurance Benefits issues audited financial statements and required supplementary information for the OPEB Trust Fund. This information is publicly available through the Insurance Benefits' link on PEBA's website at www.peba.sc.gov or a copy may be obtained by submitting a request to PEBA – Insurance Benefits, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, OPEB Trust fund financial information is also included in the comprehensive annual financial report of the state.

Plan Descriptions

The Other Post-Employment Benefits Trust Fund (OPEB Trust), refers to the South Carolina Retiree Health Insurance Trust Fund (SCRHITF) established by the State of South Carolina as Act 195, which became effective on May 2008. The SCRHITF was created to fund and account for the employer costs of the State's retiree health and dental plans.

In accordance with Act 195, the OPEB Trust is administered by the PEBA, Insurance Benefits and the State Treasurer is the custodian of the funds held in trust. The Board of Directors of PEBA has been designated as the Trustee.

The OPEB Trust is a cost-sharing multiple-employer defined benefit plan. Article 5 of the State Code of Laws defines the plan and authorizes the Trustee to at any time adjust the plan, including its benefits and contributions, as necessary to insure the fiscal stability of the plan. In accordance with the South Carolina Code of Laws and the annual Appropriations Act, the State provides post-employment health and dental benefits to retired State and school district employees and their covered dependents.

Benefits

The SCRHITF is a healthcare plan that covers retired employees of the State of South Carolina, including all agencies, and public-school districts. The SCRHITF provides health and dental insurance benefits to eligible retirees. Generally, retirees are eligible for the health and dental benefits if they have established at least ten years of retirement service credit. For new hires beginning employment May 2, 2008 and after, retirees are eligible for benefits if they have established 25 years of service for 100% employer funding and 15-24 years of service for 50% employer funding.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

10. Post-Employment Benefits Other Than Pensions (Continued)

Contributions and Funding Policies

Section 1-11-710 of the South Carolina Code of Laws of 1976, as amended, requires the postemployment and long-term disability benefits to be funded through non-employer and employer contributions for active employees and retirees to the PEBA – Insurance Benefits. Non-employer contributions consist of an annual appropriation by the General Assembly and the statutorily required transfer from PEBA – Insurance Benefits reserves.

The SCRHITF is funded through participating employers that are mandated by State statute to contribute at a rate assessed each year by the Department of Administration Executive Budget Office on active employee covered payroll. The covered payroll surcharge for the year ended June 30, 2019 was 6.05 percent. The South Carolina Retirement System collects the monthly covered payroll surcharge for all participating employers and remits it directly to the SCRHITF. Other sources of funding for the SCRHITF also include the implicit subsidy, or age-related subsidy inherent in the healthcare premiums structure. The implicit subsidy represents a portion of the health care expenditures paid on behalf of the employer’s active employees. For purposes of GASB Statement No. 75, this expenditure on behalf of the active employee is reclassified as a retiree health care expenditure so that the employer’s contributions towards the plan reflect the underlying age-adjusted, retiree benefit costs. Non-employer contributions include the mandatory transfer of accumulated PEBA – Insurance Benefits’ reserves and the annual appropriation budgeted by the General Assembly. It is also funded through investment income.

For purposes of measuring the net OPEB liability, deferred outflows and inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB Trust, and additions to and deductions from the OPEB Trust fiduciary net position have been determined on the same basis as they were reported by the OPEB Trust. For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Therefore, benefit and administrative expenses are recognized when due and payable. Investments are reported at fair value.

Actuarial Assumptions and Methods

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plans (as understood by the employer and plan participants) and include the types of benefits provided at the time the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

10. Post-Employment Benefits Other Than Pensions (Continued)

Actuarial Assumptions and Methods (continued)

Additional information as of the latest actuarial valuation for SCRHITF:

Valuation Date:	June 30, 2018
Actuarial Cost Method:	Entry Age Normal
Inflation:	2.25%
Investment Rate of Return:	2.75%, net of OPEB Plan investment expense; including inflation
Single Discount Rate:	3.13% as of June 30, 2019
Demographic Assumptions:	Based on the experience study performed for the South Carolina Retirement Systems for the 5-year period ending June 30, 2015
Mortality:	For healthy retirees, the 2016 Public Retirees of South Carolina Mortality Table for Males and the 2016 Public Retirees of South Carolina Mortality Table for Females are used with fully generational mortality projections based on Scale AA from the year 2016. Multipliers are applied to the base tables based on gender and employment type.
Health Care Trend Rate:	Initial trend starting at 6.40% and gradually decreasing to an ultimate trend rate of 4.15% over a period of 14 years
Retiree Participation:	79% for retirees who are eligible for funded premiums 59% participation for retirees who are eligible for Partial Funded Premiums 20% participation for retirees who are eligible for Non-Funded Premiums
Notes:	There were no benefit changes during the current year; the discount rate changed from 3.62% as of June 30, 2018 to 3.13% as of June 30, 2019; minor updates were made to the healthcare trend rate assumption

Roll Forward Disclosures

The actuarial valuation was performed as of June 30, 2018. Update procedures were used to roll forward the total OPEB liability to June 30, 2019.

Net OPEB Liability

The Net OPEB Liability (NOL) is calculated separately for each OPEB Trust Fund and represents that particular Trust's Total OPEB Liability (TOL) determined in accordance with GASB No. 74 less that Trust's fiduciary net position. The allocation of each employer's proportionate share of the collective Net OPEB Liability and collective OPEB Expense was determined using the employer's payroll-related contributions over the measurement period.

The following table represents the components of the net OPEB liability as of June 30, 2019:

<u>OPEB Trust</u>	<u>Total OPEB Liability</u>	<u>Plan Fiduciary Net Position</u>	<u>Net OPEB Liability</u>	<u>Plan Fiduciary Net Position as a % of Total OPEB Liability</u>
SCRHITF	\$ 16,516,264,617	\$ 1,394,740,049	\$ 15,121,524,568	8.44%

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

10. Post-Employment Benefits Other Than Pensions (Continued)

Net OPEB Liability (Continued)

The TOL is calculated by the Trusts' actuary, and each Trust's fiduciary net position is reported in the Trust's financial statements. The NOL is disclosed in accordance with the requirements of GASB No. 74 in the Trusts' notes to the financial statements and required supplementary information. Liability calculations performed by the Trusts' actuary for the purpose of satisfying the requirements of GASB Nos. 74 and 75 and are not applicable for other purposes, such as determining the Trusts' funding requirements.

At June 30, 2020, the Office reported a liability of \$8,201,310 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2018 and rolled forward to June 30, 2019. The Office's proportion of the net OPEB liability was based on a projection of the Office's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2020 and 2019, the Office's proportion was 0.054236% and 0.053469%, respectively.

Single Discount Rate

The Single Discount Rate of 3.13% was used to measure the total OPEB liability for the SCRHITF. The accounting policy for this plan is to set the Single Discount Rate equal to the prevailing municipal bond rate. Due to the plan's investment and funding policies, the difference between a blended discount rate and the municipal bond rate would be less than several basis points (several hundredths of one percent).

Long-term Expected Rate of Return

The long-term expected rate of return represents assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market-based inputs. The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2018 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation. This information is summarized in the following table:

<u>Asset Class</u>	<u>Target Asset Allocation</u>	<u>Long Term Expected Arithmetic Real Rate of Return</u>	<u>Allocation Weighted Long Term Expected Portfolio Real Rate of Return</u>
US Domestic Fixed Income	80.00%	0.60%	0.48%
Cash	20.00%	0.10%	0.02%
Total Expected Real Return	<u>100.0%</u>		<u>0.50%</u>
Expected Inflation			<u>2.25%</u>
Total Return			<u>2.75%</u>
Investment Return Assumption			<u>2.75%</u>

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

10. Post-Employment Benefits Other Than Pensions (Continued)

Sensitivity Analysis

The following table represents the Office's proportionate share of the SCRHITF's net OPEB liability calculated using a Single Discount Rate of 3.13%, as well as what the Office's proportionate share of the net OPEB liability would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher:

Sensitivity of the Proportionate Share of Net OPEB Liability to Changes in the Single Discount Rate			
OPEB Trust	1.00% Decrease (2.13%)	Current Discount Rate (3.13%)	1.00% Increase (4.13%)
SCRHITF	\$ 9,722,553	\$ 8,201,310	\$ 6,980,450

Regarding the sensitivity of the Office's proportionate share of SCRHITF's net OPEB liability to changes in the healthcare cost trend rates, the following table presents the Office's proportionate share of the net OPEB liability, calculated using the assumed trend rates as well as what the Office's proportionate share of the net OPEB liability would be if were calculated using a trend rate that is one percent lower or one percent higher:

Sensitivity of the Proportionate Share of Net OPEB Liability to Changes in the Healthcare Cost Trend Rate			
OPEB Trust	1.00% Decrease	Current Healthcare Cost Trend Rate	1.00% Increase
SCRHITF	\$ 6,693,145	\$ 8,201,310	\$ 10,165,386

OPEB Expense and Deferred Outflows and Inflows of Resources

For the year ended June 30, 2020, the Office recognized OPEB expense of \$547,687. At June 30, 2020, the Office reported deferred outflows and inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
OPEB contributions subsequent to measurement date	\$ 323,918	\$ —
Differences in actual and expected plan experience	96,572	266,587
Changes in assumptions	542,688	507,870
Changes in proportion and differences in contributions	287,835	65
Net differences between projected and actual earnings on plan investments	9,593	—
	\$ 1,260,606	\$ 774,522

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

10. Post-Employment Benefits Other Than Pensions (Continued)

Contributions subsequent to the measurement date of \$323,918 were reported as deferred outflows of resources related to OPEB and will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows. Average remaining services lives of all employees provided with OPEB through the June 30, 2019 was 7.133 years for SCRHITF:

<u>Measurement Period</u> <u>Ending June 30,</u>	<u>Fiscal Year Ending</u> <u>June 30,</u>	<u>SCRHITF</u>
2020	2021	\$ 3,052
2021	2022	3,052
2022	2023	(104)
2023	2024	(5,104)
2024	2025	81,645
Thereafter		79,625

Other Employee Benefits

In accordance with the South Carolina Code of Laws and the annual Appropriations Act, the State provides certain health care, dental, and life insurance benefits to all permanent full-time and certain permanent part-time employees of the Office. These benefits are provided on a reimbursement basis by the employer agency based on rates established at the beginning of the service period by the Insurance Benefits Division of PEBA.

11. Deferred Compensation Plans

Several optional deferred compensation plans are available to State employees. The multiple-employer plans, created under Internal Revenue Code Sections 457, 401(k), and 403(b), are administered by third parties and are not included in the Office's financial statements. Compensation deferred under the plans is placed in trust for the contributing employee. The Office has no liability for losses under the plans. Employees may withdraw the current value of their contributions when they terminate State employment. Employees may also withdraw contributions prior to termination if they meet requirements specified by the applicable plan. The Office made no contributions for the fiscal year ended June 30, 2020.

12. Risk Management

The Office is exposed to various risks of loss including theft of, damage to, or destruction of assets, general torts and maintains State insurance coverage for non-owned motor vehicles and general torts. The Office did not incur any losses during the fiscal year ended June 30, 2020, 2019, or 2018.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

12. Risk Management (Continued)

The Office and other entities pay premiums to the State’s Insurance Reserve Fund (“IRF”) which issues policies, accumulates assets to cover the risks of loss, and pays claims incurred for covered losses related to the following assets, activities and / or events:

1. Motor vehicles (non-owned);
2. Torts;
3. Building and content;
4. Inland marine; and
5. Data processing.

The IRF is self-insured and purchases reinsurance to obtain certain services and specialized coverage and to limit losses in the areas of certain property and equipment and auto liability. Reinsurance permits partial recovery of losses from reinsurers, but the IRF remains primarily liable. The IRF’s rates are determined actuarially. The Office paid \$25,440 to the IRF for insurance premiums during the fiscal year ended June 30, 2020.

The Office has not transferred the risk of loss for employee theft or misappropriation of assets and the portion of the risks of loss related to insurance policy deductibles for non-owned motor vehicles and torts to a State or commercial insurer.

13. Transactions with State Entities / Related Parties

The Office had significant transactions with the State and various State agencies. The Office purchases goods and services from various State agencies. Total purchases from State agencies were \$1,035,874 for the fiscal year ended June 30, 2020. Of the total purchases from State Agencies, payments totaling \$803 for the fiscal year ended June 30, 2020 were also made to another agency for unemployment insurance and workers’ compensation insurance premiums of \$14,349 were paid to the State Accident Fund during fiscal year 2020.

The Office is statutorily mandated to provide services or perform duties related to court fines, Local Government Investment Pool, decommissioning trusts, debt, investments, unclaimed property and college savings plans. Total revenues earned by the Office for those services were \$8,011,115 for the fiscal year ended June 30, 2020.

The Office provided no material services free of charge to other State agencies during the fiscal year ended June 30, 2020. The Office participates in the statewide dual employment program.

14. Unclaimed Property Program

The Unclaimed Property Program (“UPP”) is administered by the Office. The property transferred to the UPP for safekeeping is held indefinitely for the benefit of the rightful owners. Until claimed, the funds are used for the good of all South Carolina citizens.

South Carolina Office of the State Treasurer
Notes to the Financial Statements
For the Year Ended June 30, 2020

14. Unclaimed Property Program (continued)

The Office receives an actuarial valuation for the liability it has to refund the unclaimed property it has received. The liability for the unclaimed property refund is based on historical and expected payout frequencies and other relative factors. For the fiscal year ended June 30, 2020, the estimated liability was \$244,321,262. The amount of cash held by the UPP was \$191,752,803. In the event that the amount of refunds requested exceeds the amount of cash in the UPP, the State would be required to fund the difference. Therefore, the Office has recorded a receivable in the amount of \$52,568,459 from the State's General Fund which represents the excess of the liability over the amount of cash held by the UPP. This receivable is recorded in Amounts Due from Other State Agencies in the Agency Funds in the Statement of Fiduciary Net Position – Fiduciary Funds.

15. Subsequent Events

In preparing these financial statements, management has evaluated events and transactions for potential recognition and disclosure through December 10, 2020, the date these financial statements were available to be issued.

South Carolina Office of the State Treasurer
Notes to Required Supplementary Information
Budgetary Comparison Schedules
For the Year Ended June 30, 2020

1. Budgetary Funds

The State's Annual Appropriations Act, its legally adopted budget, does not present budgets by GAAP fund. Instead, it presents program-level budgets for the following two funds:

General Funds – These funds are general operating funds. The resources in the funds are primarily taxes. The State expends General Funds to provide traditional State government services.

Total Funds – The Total Funds column in the Appropriations Act includes all budgeted resources. Amounts in this column include General Funds as well as most, but not all, federal and department-generated resources. Total Funds include portions of certain proprietary and capital project fund activities as well as most special revenue activities, but exclude the pension trust funds and some other fiduciary fund activities.

Amounts obtained by subtracting the General Funds column in the Appropriations Act from the Total Funds column in the Appropriations Act are referred to within these notes and in the accompanying schedules as *Other Budgetary Funds*.

As operating conditions change, the Office may transfer appropriations between programs and classifications within programs. However, limits are placed on increasing/decreasing authorizations for personnel services without SFAA approval. Also, a revision of budgeted amounts over and above the total revenues appropriated requires approval of the SFAA. Due to the Office's ability to transfer appropriations, the budgetary comparison schedule for the State Treasurer's Office Budgetary General Funds shows no variance between final budgeted amounts and actual expenditures on the budgetary basis of accounting. The overall increase in appropriations for the E160 - State Treasurer's Office Budgetary General Funds, E160 - State Treasurer's Office Budgetary Other Funds, and X220 - State Treasurer's Office Budgetary General Funds were approved by the SFAA.

2. Original and Final Budgeted Amounts; Basis of Presentation

The original appropriations presented in the accompanying schedules for the General Fund, Aid to Subdivisions Fund and State Treasurer's Office Earmarked Fund include amounts in the Appropriations Act as well as any appropriation reductions specifically authorized by law to prevent duplicate appropriations. The terminology, classification, and format of the appropriations section of the accompanying schedules are substantively the same as for the legally adopted budget.

The General Assembly does not approve estimated revenue or fund balance amounts for Budgeted Other Funds which include the Office's General Fund, State Treasurer's Office Earmarked Fund, and Aid to Subdivisions Fund. However, Section 115 (*Recapitulations*) of the Appropriations Act includes net source of funds amounts (i.e. estimated cash brought forward from the previous fiscal year plus estimated revenue for the current fiscal year minus estimated cash to be carried forward to the following fiscal year) for three categories of Budgeted Other Funds: Federal, Earmarked, and Restricted.

3. Legal Level of Budgetary Control

The Office maintains budgetary control at the level of summary objective category of expenditure within each program of each department or agency which is the level of detail presented in the accompanying schedules.

South Carolina Office of the State Treasurer
Notes to Required Supplementary Information
Budgetary Comparison Schedules
For the Year Ended June 30, 2020

4. Basis of Budgeting

Current legislation states that the South Carolina General Assembly intends to appropriate all monies to operate State government for the current fiscal year. Unexpended appropriations lapse on July 31 unless the department or agency is given specific authorization to carry them forward to the next fiscal year. Cash-basis accounting for payroll expenditures is used, while the accrual basis is used for other expenditures.

State law does not precisely define the State's budgetary basis of budgeting. In practice, however, it is the cash basis with the following exceptions:

- Departments and agencies shall charge certain vendor and interfund payments against the preceding fiscal year's appropriations through July 12.
- Revenues are recorded only when the State receives the related cash with the exception of certain tax amounts, such as motor fuel taxes and gas taxes, which are not received by the Office's General Fund, State Treasurer's Office Earmarked Fund, or Aid to Subdivisions Fund in the accompanying schedules.

5. Reconciliation of Budget to GAAP Reporting Differences

The accompanying budgetary comparison schedules compare the Office's legally adopted budget with actual information in accordance with the legal basis of budgeting. Budgetary accounting principles differ significantly from GAAP accounting principles. Basis differences arise because the basis of budgeting differs from the GAAP basis used to prepare the Statement of Revenues, Expenditures, and Changes in Fund Balances. In the current fiscal year, there are basis differences for the Office's General Fund and State Treasurer's Office Earmarked Fund, which consist primarily of prepaids.

Reconciliation of Budgetary Basis to GAAP Basis Expenditures
For the Year Ended June 30, 2020

	General Fund	State Treasurer's Office Earmarked Fund	Aid to Subdivisions Fund
Total expenditures, budgetary basis	\$ 2,118,927	\$ 12,589,965	\$ 255,189,766

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Honorable Curtis M. Loftis, Jr.
South Carolina Office of the State Treasurer

And

Mr. George L. Kennedy, III, CPA
State Auditor
South Carolina Office of the State Auditor
Columbia, South Carolina

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the South Carolina Office of the State Treasurer (the "Office") as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Office's basic financial statements, and have issued our report thereon dated December 10, 2020.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the Office's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Office's internal control. Accordingly, we do not express an opinion on the effectiveness of the Office's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any

deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the Office's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
