**Please explain how these funds will be used to provide a public benefit:**

The funds that are being appropriated to the City of Georgetown is greatly appreciated and will be used to serve the whole community. The Stormwater pump is essential to the City due to our flood prone areas city wide, that is exacerbated during heavy rains and hurricanes. This pump helps protect the residents and their property by pumping large volumes of water away to prevent damage and health risks associated with stagnant water. The replacement of the police radios and weapons are needed in order to keep our officers well equipped in order to serve the residents, business owners, and visitors of the City. The vehicles that are being replaced for the Police Department are aged and are no longer in service. These vehicles will be used by patrol officers to serve the community. The truck that will be purchased for the Fire Department is over 20 years old and maintenance costs are unsustainable. This truck is used to pull the fire boat and fire trailer. It is our duty, as public servants, to put the public's interests, health, and safety first. These funds will go directly toward that duty and service.
